

Conducting a Voter Registration Drive in Delaware

Voter Registration Deadline

Applications must be received or postmarked by the 4th Saturday before Election Day. A specific turnaround time applies to voter registration drives turning in applications they collect. See below.

Before Getting Started

Training Requirement: Completing training allows a person to become a temporary registrar in the organized voter registration program, which permits the person to receive, distribute and collect Delaware voter registration forms. For details on being trained as a temporary registrar and conducting voter registration drives contact the State Election Commissioner at 302-739-4277,

Notification and Registration Requirements: All people and groups conducting voter registration drives within Delaware should register with the state election commissioner or a department of elections at least 30 days before conducting a drive. In addition, such persons or groups must list their name along with the name of the solicitor on each application collected and include a sequential number on the application to be used for the voter registration log. To apply to organize a voter registration drive, please use [this form](#).

Compensation Restrictions: Individuals who have been trained as temporary registrars should not receive compensation for their voter registration activities. Only untrained individuals who are limited to distributing the national form may be compensated. Do not pay registration drive participants based on how many registrations they collect.

Planning: No drives may be conducted during a period of closed registration.

Obtaining Applications

State Form: The state form may be obtained in bulk from the state election commissioner by individuals or groups who have received the appropriate training.

Federal Form: Use of the [federal mail-in voter registration application](#) for voter registration drives is unclear. Groups who wish to use federal forms for organized voter registration should reach out to the State Election Commissioner.

Photocopying Blank Forms: Delaware state voter registration forms may not be photocopied.

Handling Applications

Incomplete Applications: There is no law or administrative rule prohibiting a voter registration drive volunteer or organizer from filling in missing information on an application. Do not make changes to an application or adding missing information without the express consent of the applicant.

Photocopying Completed Applications: As a best practice, a voter's full or partial Social Security number and/or driver's license number should not be retained.

The state instructs that forms must be filled out in blue or black pen.

Submitting Completed Applications

- Applications must be submitted within five days of completion of the voter registration drive to the state election commissioner.
- Organizations must submit a log of applications that contains the name of organization, the inclusive dates that the applications listed were collected, a list of the full names of the applicants, and an application number assigned by the organization and marked on the application for each application to election officials. Log sheets are available [here](#). Log sheets for drive coordinators are available [here](#).
- Voter registration drives must also turn in applications every five working days during the voter registration drive to the state election commissioner.
- Any application completed prior to the close of voter registration before an election must be returned by 4:30 p.m. on the date registration closes.
- Failure to abide by these regulations could result in \$1000 fines and prohibitions against conducting future drives.
