

Conducting a Voter Registration Drive in Kansas

Voter Registration Deadline

Applications must be received or postmarked by 21 days before Election Day.

A specific rule applies to voter registration drives turning in applications they collect. See below.

Getting Started

Training Requirement: Kansas does not require training for registration drives.

Notification and Registration Requirements: Kansas does not have notification requirements for registration drives. Groups that request more than 25 voter registration forms from election officials must specify who will distribute the forms, the plan for distribution, and the reason for the number of forms being requested.

Compensation Restrictions: Do not pay registration drive participants based on how many registrations they collect.

False representation: It is a felony to knowingly engaging in any of the following conduct by phone, mail, email, website or other online activity or by any other means of communication while not holding a position as an election official:

- (1) Representing oneself as an election official;
- (2) engaging in conduct that gives the appearance of being an election official; or
- (3) engaging in conduct that would cause another person to believe a person engaging in such conduct is an election official. This requirement is the subject of current litigation and some groups in state, out of an abundance of caution, are holding off on registration drives until further clarification from court. Check back for updates.

Obtaining Applications

State Form: The state mail-in voter registration application can be downloaded at the [Secretary of State's website](#). Election officers are also required to supply free forms on request, but anyone requesting more than 25 forms must request the forms in writing, as noted above.

Federal Form: The [federal mail-in voter registration application](#) may be used in voter registration drives.

Photocopying Blank Forms: Blank applications may be photocopied and used in voter registration drives.

Handling Applications

Incomplete Applications: Forms that do not have citizenship or age information will be rejected. Do not fill in any missing information on a registration form unless you have permission from the applicant. The state requests that all unused forms be returned to the office at which they were obtained.

Photocopying Completed Applications: There is no law or rule prohibiting photocopying or retaining information from completed registration applications. As a best practice, a voter's full or partial Social Security number and/or driver's license number should not be retained.

Submitting Completed Applications: The state voter registration application can be mailed, faxed, or scanned and emailed to the county election office for the voter's county of residence. Mailing addresses, fax numbers, and email addresses are available at the [Secretary of State's website](#).

Voter registration applications can also be mailed to the following address: Secretary of State, Memorial Hall, 1st Floor, 120 SW 10th Ave., Topeka, KS, 66612-1594.

Completed applications must be sent as soon as they are completed or by the registration deadline.
